### Guidelines to Help Enjoy your services:

We realize there is a lot going on the day of your wedding, but please plan to be at your appt 10 min early for us to be able to make use of all scheduled appointment time, and service you best.

#### \* Bride's Hair Consult/Practice:

What to expect? We highly encourage a practice/consultation no later than 3 weeks prior to event. In this consultation we will discuss ideas you may have, review pictures you are encouraged to bring, & if you have a headpiece/veil please bring it or a picture of it if possible. Our goal is always to "do" one hairstyle... time permitting we will do more, however this consult will be scheduled for 60min only, please be aware it is not always possible with every bride to do only one consult.

#### \*Anyone receiving Up-work:

Wash hair previous evening. Have taken a shower prior to hair appt, but have hair completely dry when arriving.

Wear a shirt/top that buttons up the front so nothing has to go over your head.

\*Anyone receiving Blow-outs: We will be washing your hair when you arrive, so come however you'd like, wet or dry, but have showered prior to appt. Wear a shirt/top that buttons up the front so nothing has to go over your head.

\*Anyone for Makeup: Please come with a clean face hydrated with your normal moisturizer. We do not do false eyelashes, if you would like to have them for your day, please have them on when you arrive for appointment.

\*Pedicure Service: Try to wear or bring a pair of thong sandals, the less straps the better.
